Health Forms

You are responsible for distributing and collecting health information from your youth. Registration only asks for emergency information and treatment permission. Insurance information and medication information is NOT requested from retreat leadership, but should be part of the information you request from the youth participant. It is your responsibility to bring this information with you. **IMPORTANT:** all medications while at Living River should be secured from improper usage. It is your responsibility to see this is done. There are options for this: locked suitcases, lockers with provided locks in staff lounge, locked in the First Aid room or locked in cars, if the weather permits. A sample health information form is found on the Presbytery's website under Retreats

What is expected as an advisor/chaperone:

Stay with the youth in the cabins

Fully participate in the retreat

Take responsibility for their youth's community behavior and medication management

Abide by the Presbytery's Child & Youth Protection Policy

Communicate your youth & chaperone payment procedure to your youth
